DETAILED ACTION

1. The amendment filed 06/25/2007 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure are “a tamper resistant storage device”, and “said tamper resistant storage device includes and information processing apparatus” as now recited in claim 1, lines 4-6, and also in claims 2 and 6.

Applicant is required to cancel the new matter in the reply to this Office Action.

2. Claims 1,2 and 4-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In particular, the specification does not support for “a tamper resistant storage device”, and “said tamper resistant storage device includes and information processing apparatus” as now recited in claim 1, lines 4-6, and also in claims 2 and 6.

3. Claims 1-2 and 4-66 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, it is unclear as to what by the recitation " $x \cdot (2^n) \bmod P$ of the input value x divided by P ", lines 3-4). Further, on line 18, it is unclear as to which of " $x \cdot 2^{(2m+n)} \cdot (2^{(-m)}) \bmod P$ " or " $x \cdot 2^{(m+n)} \bmod P$ " in the equation is used to calculate " x_1 ", and on line 20, which of " $x_1 \cdot (2^{(-m)}) \bmod P$ " or " $x \cdot (2^{An}) \bmod P$ " in the equation is used to calculate " x_2 ". Claims 2 and 6 also have the same problem.

4. Claims 1, 2 and 6 without the new matters are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter for the same reason set forth in the last Office action dated 03/23/2007.

5. Applicant's arguments filed 10/24/2006 have been fully considered but they are not persuasive because an IC card is not necessary "a tamper resistant storage device". Therefore, the specification does not support for "a tamper resistant storage device", and "said tamper resistant storage device includes and information processing apparatus" as now recited in claim 1, lines 4-6, and also in claims 2 and 6.

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
